PROJECT(S)

PEGGY Flutter | Dart | GraphQL | Stacked | MVVM

- Built an app for selling and purchasing artwork by Artists, Collectors, and Gallery. The artist can create their artwork and using our Fingerprinting technique they can post their artwork for sale.

- Buyers can purchase the artwork and re-authenticate the artwork using our Fingerprinting technique, to check if it is original artwork or not. We also provide bidding and quoting on the artworks as well as reselling of artworks.

TICKETEXCHANGE React-native | Typescript | REST API | MVVM

- Built an application for purchasing tickets for Movies, Sports, Shows, and Conferences. This has a special feature for reselling the tickets.

- Users can request tickets with a quote or the Owner of the ticket can also put the ticket on sale and the users can bid accordingly.
